Ten Reasons for Home Buying

Help Us to Build up this Community

1. Your home merchants can duplicate the prices made by any responsible concern anywhere on goods of equal quality, in the same quantities and on the same basis of delivery and payment.
2. You can examine your purchases in the home stores and be assured of satisfaction before investing your money.
3. Your home merchants are always ready and willing to make right any error or any defective article purchased.
4. Your home merchants help support, through direct and indirect taxation, your schools, churches, libraries and other public institutions.
5. Your home merchants help make a good local market for everything you have to sell, and that market more than any other one factor gives your land its present value.
6. Your home merchants are your good friends, ever ready to extend a helping hand in time of need.
7. If this community is good enough for you to live in and make your money in, 'tis good enough to spend it in.
8. The best citizens in this community are those who believe in and practice home patronage. Be one of the best!
9. Merchants in the distant city give you nothing valuable that the home merchants cannot give you, and the former cannot and will not do for you many things the latter do gladly.
10. Every dollar kept in circulation in this community helps increase property values. Every dollar sent out of this community that could as well be spent here hinders the wheels of progress and helps to build up some other community at your expense.

NEW INDUSTRIES OF THE PAST WEEK

Developmental Announcements
From Various Sections of
South.

[Special to The Times-Dispatch.]
Baltimore, May 20.—The Manufac-
turers' Record of this week says:

If the permission granted by the
Interstate Commerce Commission to the
Carroll, Clinchfield and Ohio
Railway and connecting lines to make
a low rate of freight on coal from
Southwest Virginia to Charleston
proves to be in accordance with the
application made some months ago by
the Clinchfield line, immediate con-
struction is to be undertaken of coal
shipping piers at Charleston to cost
\$500,000. to be followed by the expendi-
ture of about \$2,000,000 in building
by-product coke ovens and an iron
furnace, the latter to use foreign ores.
It is reported that the capital for this
development has been available for
several months, depending upon the
decision by the Interstate Commerce
Commission of a low rate on coal to
Charleston. Connected with this de-
velopment negotiations are also under
way, and said to be well advanced,
for the building of a large sugar re-
finery at Charleston.

It is reported from New York that
Canadian and English capitalists have
united with New York and St. Louis
people in purchasing contracts for
handling gas in the Caddo field, in
Louisiana, and the franchise for dis-
tributing it to New Orleans. It is re-
ported that \$4,000,000 has been sub-
scribed for carrying out this under-
taking, and that it will result in build-
ing a 320-mile long pipe line to pipe
gas to New Orleans.

tral washer plant with capacity of 500
tons per eight hours, and begun the
construction of seventy-five additional
coke ovens. Construction of iron fur-
naces, by-product coke ovens, etc., will
be determined later in the summer.
